Last week marked the official groundbreaking for the Athens Medical Complex located at 2142 West Broad Street. The first floor of building one will feature a state of the art 16,000 square foot multi-specialty surgery center. The project's remaining 44,000 square feet will consist of Class "A" medical office space providing a home for several of Athens' most trusted physicians.

The AMC is well positioned to provide superb commuting access to St. Mary's Hospital and Athens Regional Hospital for doctors and patients alike. The unbeatable location is across the street from St. Mary's Hospital and less than one and one half miles from Athens Regional Hospital. With access points on both Broad Street and Old Epps Bridge Road entering and exiting the site is extremely convenient. In addition to the trouble-free access, patients will appreciate ample parking, covered drop-off and world class architecture.

For sales and leasing information please contact Joel Harber with Landmark Properties 706.543.1910.
